- (1) - Trigger Species - Species that needed additional mapped land cover representation within the Pierce County Biodiversity Network
- (2) - At-Risk - Washington Gap Analysis Project (WAGAP) selected species considered to be most at risk of continued or future population declines due to human activities
- (3) - Listed (State or Federal) - Species listed as State endangered, threatened, sensitive, candidate or monitor, as well as species listed or proposed for listing by the U.S. Fish and Wildlife Service
- (4) - PHS - a species defined as priority under the WDFW Priority Habitats and Species (PHS) Program
- (5) - Included based on species significance under the WDFW/PHS/Heritage database, although not predicted to occur
- (6) - Included in the Washington Comprehensive Wildlife Conservation Strategy list
- (7) - Current supporting location data
- (8) - Washington Comprehensive Wildlife Conservation Strategy (2005) species recommended for monitoring
